## PROFESSIONAL EXPERIENCE

**Salesforce Developer(smartinternz)**
- Process Automation Specialist
- Apex Specialist

This Salesforce Summer Internship drives the candidate to get knowledge and to meet
subject experts where they will be endowed with experience and work knowledge.

## PROJECTS

**Group Recommendation System**
- This project  is designed to help people make better decisions when selecting products or services. The system takes into account user preferences, past purchases, and other factors to recommend the best possible option for a given user.

**Bus Reservation System**
- The Bus Reservation System is a web-based application that enables bus travelers to book their tickets online. The system allows customers to select their preferred seat and pay for their journey securely. It also provides information about the available buses, their routes, and their fares. The system allows customers to check the availability of buses and book their tickets in advance.
